***ai and automation are
reshaping the future of work***
*June 5th, 2020 - one future
vision might include co bots
robots teamed with human
operators and co workers co
bots are a new element of the
work relationship that needs to
be fed as teams be a diverse
mix of human and artificial
intelligence diversity and
inclusion for the 2020s ai
presents a new way to think
about diversity and teams'*

**'coronavirus automation and
the future of work cedefop**
June 7th, 2020 - given that
both sectors are severely
affected by coronavirus and in
turn future job openings may
be lower than originally
estimated by the skills forecast
estimations made pre covid 19
it is a logical assumption that
such workers may be hit
harder than others and
automation may accelerate job
replacement by robots more
easily"**artificial intelligence
