Avian Influenza Treatment amp Management Medical Care

July 24th, 2018 - The mainstay of treatment is the administration of antiviral medication Supportive care such as oxygen therapy intravenous fluids and parenteral nutrition may be needed Severe cases may require ventilatory support with intubation and low volume high frequency ventilation Antiviral therapy"***Immunology and Disease Prevention in Poultry***

December 21st, 2018 - Immunology and Disease Prevention in Poultry Hebert Trenchi Montevideo Uruguay Introduction One of the golden rules in the poultry industry is ?only with healthy birds it is possible to get high productive efficiency and with it economic profitability? The first step to prevent sanitary risks is to design a correct plan for biosecurity'

'Influenza flu Virus Introduction Classification and

December 22nd, 2018 - Influenza commonly called ?the flu? is a contagious respiratory illness a very important global public health problem It causes seasonal flu epidemics every year and is an important disease responsible for school and job absenteeism hospitalization and deaths"Immunity in Poultry authorSTREAM

December 17th, 2018 - Handling every bird Handling every bird Subcutaneous injection under the skin usually at the back of the neck and not into the muscle Ocular Through bird?s eyes vaccine makes its

way into the respiratory tract via the lacrimal duct Nasal Through birds? nostrils either as a dust or as a drop Oral given in the mouth'

**'Recent Advances in Biology and Immunobiology of Eimeria
January 21st, 2017 - Avian coccidia are highly immunogenic and primary infections can stimulate solid immunity to homologous challenges Therefore it would seem obvious that vaccines could offer excellent alternatives to drugs as a means of controlling coccidiosis'**
